Q: can i run diablo 2 with 1.13d on the PC (win7)

**DOWNLOAD**

Oct 26, 2017 Had the same problem (I installed the game for the first time). In this case, when I try to launch, the game goes to the main menu (sfx sound). It has also reset me my sound system.. Jun 9, 2016 Just figured out what is wrong. 1.13 patch doesn't work. It re-boots me (it restarts Dos screen, and sounds plays). >. Mar 11, 2016 Thanks so much for your help. I'm sure i'd have found it myself sooner or later if i didn't have..Q: Style part of an html webpage I want to change the style of just one part of the webpage. For example, I want to change the bottom grey background of a tab. What's the easiest way to do this? I've tried which was suggested by someone in here a few days ago. To be honest, I just want to change the background of the specific tab to grey. bla I've already tried to change the bottom div's properties to 'border: none;' and this hasn't helped. A: Edit, I wouldn't say that is the easiest way, however if you can ajax the tab border, then you can add border to that div that is a sibling of the tab box. If you are trying to style the tab, that is a difficult area. I would use JavaScript or CSS to do it. Here is the code for the CSS way: CSS: #product\_tab.active { bottom: 0; background-color: #ccc; } This will apply to the div, so if you are adding some other buttons, then it would probably end up looking something like: #product\_tab.active button {
